Beginners Chess Class

This course is for students who are new or relatively new to chess. Students will learn the basic rules of the game: How the pieces move and what their point values are; how the pieces capture; the concepts of Check and Checkmate; all the rules of Castling, Pawn Promotion, etc. Once these skills are understood, the students will begin learning the basics of chess strategy as well. The students will also put theory into practice by playing their peers.

Intermediate and Advanced Chess Classes

The students will learn about chess strategy, tactics, and theory in the 3 phases of the game: the Opening, the Middle Game, and the End Game. The course will focus on the study of the games of the great Chess Grandmasters, solving chess problems, and studying the imbalances on the chess board. The students will also put theory into practice by playing their peers.

If students need to wait at school until their Chess session begins, they will need to use our After School Care Program and will be charged according to the time blocks listed below. You must purchase a prepaid After School Care Card in order to utilize the program. Each card is \$240 for 40 blocks. Call Mrs. Chan to purchase an After School Care Card. **If your child attends the After School Care Program without a card, you will be charged \$25 per time block.**
